SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of Economic Analysis is responsible for the computation and publication of the U.S. balance of payments accounts. The information collected in this survey is an integral part of the “private remittances” portion of the U.S. balance of payments accounts. The balance of payments accounts, which are published quarterly in the Bureau's monthly publication, the *Survey of Current Business*, are one of the major statistical products of BEA. The accounts provide a statistical summary of U.S. international transactions. They are used by government and private organizations for national and international policy formulation, and analytical studies. Without the information collected in this survey, an integral component of the private remittances account would be omitted. No other Government agency collects comprehensive annual data on private unilateral transfers of funds and commodities to foreign countries.

The survey requests information from U.S. religious, charitable, educational, scientific, and similar non-profit organizations on the transfer of gifts, grants, donations, etc., to foreign countries. Information is collected on a quarterly basis from institutions transferring \$1 million or more each year, and annually for all others. Nonprofit organizations with total remittances of less than \$25,000 annually are exempt from reporting.

II. Method of Collection

Information is obtained from U.S. religious, charitable, educational, scientific, and similar non-profit organizations who voluntarily agree to provide data regarding transfers of gifts, grants, and/or donations to foreign countries. Submission of the completed report form, or computer printouts in the format of the report form, are the most expedient and economical methods of reporting the information.
